**Six Ways to Stay Safe When Working on Cranes in Marine Terminals**

1. Turn off, de-energize, and lockout and tagout all power sources before servicing.

2. Identify confined spaces on cranes and follow safety precautions when entering.

3. Wear fall protection when working on elevated surfaces outside the crane’s cab.

4. Know the locations of pinch points and crushing hazards.

5. Be aware of vehicle traffic patterns and conduct work in a protected area.

6. Maintain clear and open radio communication with crane operators.
